

About Us

Who we are

CreativePlay is an exciting and interactive experience designed to get you and your family up and learning! We have focused all of our programs on ensuring family fun, collaboration and learning. No matter what activity you take part of, you will have to work together to complete the task at hand and learn something new. CreativePlay is great for families of all shapes and sizes and can accommodate up to five people at a time. Each family is given their own personal 30 minute slot to enjoy the experience and valuable family time. CreativePlay can also be accommodated for school groups.

How it works

Each experience takes place in our 4D immersive dome. Did we mention this also acts as a giant ball pit? Yes, you read that right. Not only will you learn something educational and valuable but you will get to spend your 30 minute slot playing in a ball pit! Once your family has been briefed on the safety aspects of the dome you will be let in to explore. An introductory screen will guide you through the game process. Each activity has pre-selected "special" balls which your family must find in the ball pit in order to learn something. There are a lot of balls in there so you will have to work as a team to find
